

# Discovery Days

## Subject Tasters: STEM 2

Come and explore subjects across the fields of science, technology, engineering and maths giving your students a chance to experience subjects designed to stimulate intellectual curiosity, collaborative working and creative problem solving

**Book onto a Discovery Day at The University of Sheffield**

### Engineering

Wednesday 19th June 2019

Hicks LTD

09.00-17.00

40 places available (Y12)

### Engineering Success!

Wednesday 15th May 2019

Discovery rooms

9.00-15.30

60 places available (Y9/Y10)

**Book a pre or post visit at your school or college**

This fun interactive session will give students a real hands on experience of some of the exciting work being done in the engineering department. It will also give them the opportunity to learn about the wide variety of career opportunities available to engineers

This team-based activity – facilitated by engineers from Sheffield Engineering Leadership Academy – will challenge students to work together to build a prototype of Hyperloop, an underground transport system. Each team’s work must connect with other teams’, and there’s a tight deadline to meet! Students will be challenged to work under pressure, make and be accountable for design and implementation decisions, and learn how engineers use creativity to solve challenges and change the world.
