Hepp in the time of Covid – still here for you!

We don’t need to tell you that these are unfamiliar chaotic times, for everyone and especially for schools!

But we do need to tell you that we’re still here, ready to provide your students with information and advice about higher education, student finance, and choices and pathways.

In term 1 all our delivery will be remote. Most of our resources can be self-delivered as well (see below). Hopefully in term 2, we’ll be able to resume some face-to-face activity.

Get in touch with your Regional Activities Coordinator (email, phone, virtual meeting) to chat about what’s possible and come up with a cunning plan to make the best of these challenging times!

Supporting students with disabilities

As part of Hepp’s work with vulnerable groups, we’re holding a virtual CPD conference:

Helping SENDCOs and School Staff to support Disabled Learners into Higher Education:
Tuesday 13th October 2020
12.30 – 2.45pm
Microsoft Teams (tbc)

Book now
We also have a dedicated page for Disabled Learners on the HeppHUB, containing short films, an information booklet and resources.

Other events and resources provided by our partners can also be found on the HeppConnects page, including this session from the University of Sheffield.

“I’m visually impaired so I have a mobility instructor at the start of each academic year to identify how to get around.” - Martha

---

**Fantastic free online resources**

Over the summer, we’ve been working hard to create new resources that can be used with your students, no matter what happens.

Our greatest creations are new 15-20 minute presentations that will be available on the HeppHUB very soon!
Still based on our three strands (Benefits of Higher Education, Student Finance, Choices & Pathways) and adapted for different year groups, these can be delivered in different ways - virtually by our delivery team, internally by school staff or as pre-recorded screencasts that staff can just press play on. You'll need to get in touch with your Regional Activities Coordinator to access them.

You can use lots of our resources as part of full sessions or as fillers/conversation starters in form time, especially our:

**Short films**, including:
- benefits of higher education
- student finance
- choices & pathways
- myth-busting
- student experiences (access through Resources)
- disabled learner experience
- virtual campus tours, etc.

**Booklets**, including:
- Shape Your Future
- To Go Or Not To Go?

The HeppHUB also has links to resources provided by our university partners and wider partners, as well as national bodies.
