

# March Newsletter

The aim of our newsletter is to enable your school/college to understand and access all we have to offer at Hepp.

## HeppFest

Many thanks to everyone who attended HeppFest in February, our sessions had over 6000 participants and we hope learners now feel more confident in their knowledge to begin to make decisions relating to higher education. We have set the date for next year's festival and it will take place 6-9<sup>th</sup> February 2023. The recordings from the festival will go live as an additional resource to use in centres from 22<sup>nd</sup> March. They will be available at [hepp.ac.uk/festival](http://hepp.ac.uk/festival).

## What's HEPP-ening?

Our bookings calendar for the remainder of the academic year is filling up fast so please get in touch with your Regional Activities Coordinator if you would like to book in activity.

Dates are available from April to July to deliver face-to-face in school, and there is limited availability for on-campus visits at The University of Sheffield or Sheffield Hallam University.

We will also continue to deliver sessions virtually and provide pre-recorded presentations for you to use whenever is most convenient.

We have just updated our To “Go or Not To Go” booklet and want to get it into the hands of Year 11 learners at this key time in their decision making.

We are in the process of arranging to distribute these booklets to our region's schools. Your RAC will be in touch with more details shortly.

## Introducing Tom Broom, our new Data and Evaluation Coordinator!

Tom joined our team this month to take over from Heather Tidman as our Data and Evaluation Coordinator. Tom brings with him expertise from a data position at Door43 Health and Wellbeing service within Sheffield Futures where he worked closely with the CEIAG team.

Tom says *"I'm really excited to be starting within Hepp – I'm looking forward to helping the team make sure our activities are as effective as they can be, and that our support is reaching those who need it most."*
