

November Newsletter

Pre-recorded presentations – now available!

To make it as easy as possible for schools to access our content while we can't deliver face to face, we've created pre-recorded versions of all our new assembly-style presentations. You just need to get them on-screen and press play!

There are 10 sessions, from all three Hepp delivery strands and for years 7-11. At 17-20 minutes long, they could be used in careers lessons, PSHE, assemblies or form time.

They're only available by requesting a link from your Regional Activities Coordinator so why not get in touch today?!

heppFEST

Despite the challenges caused by Covid-19, students in schools and colleges across South Yorkshire still need to progress into further study, learning and future work.

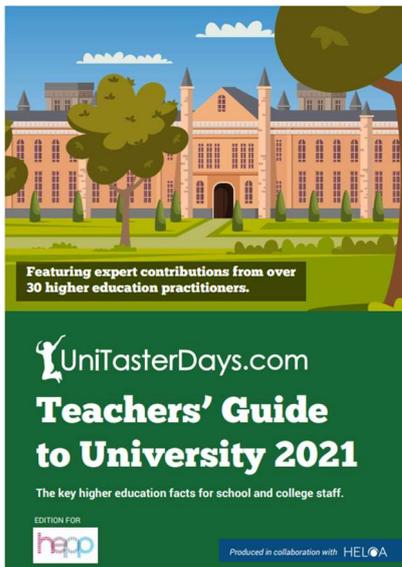

HeppFest is a week-long free online festival incorporating a wide range of sessions for students, parent/carers and teachers/advisors.

We'll be looking at the opportunities and pathways into further and higher education, and the support available to enable ALL students to achieve their ambitions.

Rather than committing to a whole day or week, you just book on to the sessions that are relevant and interesting for you or your students (can be streamed live into a lesson!). Watch your inboxes for the booking launch email coming soon!

Fantastic free online resources

There's a new super useful resource for teachers/advisors available on HeppHUB – “The Teachers’ Guide to University 2021” from UniTasterDays and HELOA.

It's packed with a wealth of information and thought-provoking contributions from various experts. Take a look for yourself [here](#).
